+ + + More Than Technology

More Than Technology

Savel has been established by its organizers who have combined their experiences with the mission to meet the fuel sector with the technology.

Initially, we have focused on R&D, then we have expanded our amount of costumers by finding solution for their problems. We finished all product's tests that we improved in a short time. And we have introduced our products to our costumers.

Savel R&D gain expert knowledge on "Fuel Dispenser Electronics" and " Automation Systems". Finding correct and accurate solutions expeditiously for our costumers' project is Savel's mission. And our aim costumer satisfaction.

Our fuel dispenser' electronics have been produced, when there was a YTL changing. It has gained a reputation by working free of problems with all automation systems like cash register. And we have served all over Turkey.

Savel Electronic Engineering Communication Ltd

SAVEL

Perpa Ticaret Merkezi B Blok Kat: 13 No: 2390

More Than Technology

+ Fuel
+ Automation
+ LPG
+ CNG

General Features

General

Full multimedia support (Internet, Selling on the monitor, TV, Videos etc.)
3d designed columns
Keypad unit is made of stainless steel
Spotlighting support
The option a payable self service with credit card
RFID card interface unit
Electronic unit is designed with latest technology
Fully compatible with automation, cash registers and any multimedia (PC or Satellite) systems
Manufacture types as suction or dispenser
To work with -30/+80°C and %95 ± relative humidity
Accuracy ± 0,25%

Motor

380 ACV /50 Hz three phases or 220 ACV monophase
Protected against excessive load, ex-proof, 0.75 kW motor

Meter

All our pumps have adjustable meters which are electronically calibrated and typed as positive displacement piston

Pumping-Unit

Our suction pumps equipped with positive displacement as rotary typed, by-pass valve, air separator, integrated suction filter and V belt driven. Speeds of the flow represents a diversity between 50/90/120 lt/min

Totalizers

We use 12 digits electronics totalizers for liter, money, shift-money and shift-liter, in addition to these, we use also 7 digits electromechanic totalizers according to your requests.

Electronic-Unit

Compatibility with the Can Bus technology
2 noozles working at the same time
USB port support
Programmable electronic card
RS485 or Current-loop communication option
Compability with all the cash registers
Compatibility with Savel multimedia module
Automatic electronic calibration
Compatibility with all the automation systems
1-wire and 2-wire special communication system
A designed card according to the EMC tests
Menu systems in 6 differents languages (Tr, En, Fr, Ar, Ru, Ge)
10 digits for electronic total

Keyboard

Solid keypad with 16 buttons made of stainless steel (ATM type)

Display

1" (25.4 mm) 6 digits for money, 6 digits for liter, 6 digits for unit price. Option one is a single screen.

Noozle and Hose

3/4 for standart dispensers and 1 for high efficient dispensers. Equally, hoses are 3/4 or 1. We use 360 degree rotating swivels to facilitate the usage.

FUEL DISPENSER

Multimedia 5 series

Monitor & TV

26" or 32" LCD support. Direct PC or Satellite antenna connection option.

LCD Panel

Graphic or TFT screen. Clear and vibrant images Transition to color screen

Panel

Electronic front panel supported with visual designs. A design provided with clear visibility.

Hydraulic

Simple hydraulic components. Accurate flow meter, accurate Pulsar accurate solenoid valve

General

Direct PC connection with USB or Ethernet. Fast data throughput with the RFID technology. Using OPW Nozzles Unit prices and data display Clear visibility Completely dominated oval lines Original hydraulic parts

5 Series Pump Models

| 5 series | Type | Statement |
|-----------------|------------|-----------------------|
| 5.24 Suction | multimedia | 2 Products 4 Nozzles |
| 5.36 Suction | multimedia | 3 Products 6 Nozzles |
| 5.48 Suction | multimedia | 4 Products 8 Nozzles |
| 5.510 Suction | multimedia | 5 Products 10 Nozzles |
| 5.24 Dispenser | multimedia | 2 Products 4 Nozzles |
| 5.36 Dispenser | multimedia | 3 Products 6 Nozzles |
| 5.48 Dispenser | multimedia | 4 Products 8 Nozzles |
| 5.510 Dispenser | multimedia | 5 Products 10 Nozzles |

Service

Response to the pump remotely via Internet. The fastest service intervention and the right solution with the remote connection.

General Features

General

26 "or 32" LCD and multimedia support
Durable chassis is made of galvanized steel
The electronic unit designed with the latest technology
Manufacture types as suction or dispenser
To work with -30/+80°C and %95 ± relative humidity
Accuracy ± 0,25%

Motor

380 ACV /50 Hz three phases or 220 ACV monophase
Protected against excessive load, ex-proof, 0.75 kW motor

Meter

All our pumps have adjustable meters which are electronically calibrated and typed as positive displacement piston

Pomping-Unit

Our suction pumps equipped with positive displacement as rotary typed, by-pass valve, air seperator, integrated suction filter and V belt driven. Speeds of the flow represents a diversity between 50/90/120 lt/min

Totalizers

12 digits electronic totalizers for liter, money, shift-money and shift-liter, in addition to these, also 7 digits electromechanic totalizers according to your requests.
